

If you have not met the requirements for the specific major you intend to pursue, but could achieve them with the courses you are taking this semester or by taking courses during the summer and fall, please:

- Consult with your adviser and/or the Chair of the department offering that major to elaborate a plan that leads you to declaration as soon as possible and then to graduation. The Assistant Deans in the College of Arts and Sciences and in the Boler School of Business are also a good source of information for course planning.
- Once the plan is solid, your adviser will release you to register for classes.
- Proceed with Priority registration.
