- Remarks on the year ahead
- Presentation of Part Time Faculty Teaching Awards
- Presentation of the Culicchia Award
- Food, drink, and general merriment

# We believe...

...that the best liberal arts education embeds real-world learning opportunities in a student's academic program and articulates legible and intentional pathways between college or graduate school and career.

# We believe...

... that the kind of education we provide must be attractive to and achievable for students from a wide variety of backgrounds and experiences, with the aim of both being true to our mission and positioning the university more solidly for the decades ahead.

# We believe...

...in the teacher-scholar ideal, and believe that our most meaningful work is the close mentoring of our undergraduate and graduate students

# We believe...

...in ensuring that our incentive structures, our means of recognition, and stewardship of CAS resources promote our strategic priorities.

# Beliefs in action (1-2 years):

- Expand CAS professional development pilot program from 11 departments across college
- Increase number, quality, and access to experiential learning opportunities
- Rebuild meaningful graduate presence through enhanced marketing, enrollment, and community engagement across programs
- Steward resources effectively while placing faculty's and staff's work with our students at the center of our endeavors

# Some hard conversations

- Advocacy
- Responsibility
- Honesty
- Equity
