Welcome Letter from Dr. Beadle

Welcome to JCU's third annual *Celebration of Scholarship!* This event began with the purpose of communicating with the entire campus community those ideas which we normally share in the classroom. This scholarly work includes discovery, integration and application, three elements of scholarship that Ernest Boyer defines in *Scholarship Reconsidered*. The week's events will celebrate our engagement in these aspects of scholarship.

To illustrate Boyer's terms, one example of the scholarship of discovery is the faculty Grauel presentations; the scholarship of integration is shown by the students in green chemistry who work to find ways of helping our environment; and the scholarship of application is demonstrated by the presentations of the students who participate in service learning. These are a few of the ideas that will be discussed over the week. I invite you to engage in the scholarship of discovery and enjoy the *Celebration*.

Mary E. Beadle, Ph.D.
Dean, The Graduate School
