It is expected that students in the Arrupe Scholars Program will develop and practice the following:

Intellectual Development

Students will analyze the complex relationship among the social, political, and economic policies, practices, and consequences of social action

Active Reflection

Students will integrate active reflection to their experiences into their lives particularly when critically evaluating social justice issues and situations.

Commitment to Solidarity

Students will demonstrate a commitment to social action grounded in sustained engagement with people facing injustice.

Advocacy

Students will develop knowledge and skills to be a voice of support for those facing injustice.
