

# Strategic Planning Annual Review

April 25, 2018

# Agenda

- Looking Back
  - From 2014 to Today
- Monitoring 2017-2018 Tactics
- Establishing 2018-2019 Tactics
- Looking Forward

[sites.jcu.edu/committee](https://sites.jcu.edu/committee)  
USPG  
Meeting Materials and Minutes

# Looking Back: 2014-2015

## Humanities Division

### Strengths

Faculty are talented and creative and varied  
Jesuit identity and commitment to social justice  
Long-standing experiential learning and service learning (and high-profile internships like *Meet the Press*)  
Excellent teaching in CAS (not just STEM)  
Close interaction between faculty and students  
Small class size  
Academic advising and mentoring  
Scholarship (productivity) given our focus on teaching  
Internationally-renowned guest speakers/teachers  
Celebration of Scholarship  
Alumni base  
Significant endowment for a university of our size  
Finances (per Moody's) are impressive (despite being tuition-driven)  
Campus is beautiful  
Long-term dedicated faculty preserve traditions, institutional memory  
Study Abroad

### Opportunities

Local cultural institutions (Theatre/art/music)  
Fine arts are a definite place to attract students we aren't getting now  
Interdisciplinary programs (Women's and Gender Studies, etc.) can serve the new core well and we should promote them more  
Cleveland is hot  
Also location in Cleveland makes our social justice focus extremely relevant  
Increased support for faculty research (year-long chair or true sabbatical program)  
Raise the amounts for fellowships (summer) and awards  
Creative restructuring of programs, possibly in creating centers or institutes (boards can serve as fundraising sources), but resources are crucial and directors need more than a single course release  
Small investment toward promoting existing programs may be more cost-effective than building a brand-new program.  
Larger societal conversations and strong faculty mean humanities are ripe for marketing efforts.  
Postdoctoral chairs/dissertation fellowship to improve diversity  
Hiring dedicated grant-writers (faculty are very busy)  
Graduate programs (both existing and new) and certificate programs are a major possibility for growth  
Continuing education (degree completion) is also a possibility.  
Professors of Practice (taking advantage of local teaching talent)

### Notes:

Invisibility of graduate programs in the process is a serious problem (they are a real opportunity for growth and excellence).

This information is taken from 11 faculty and the comments of the chairs, caution is suggested  
Tight timelines (and continuing "crises") make processes like this difficult.  
There needs to be additional and continual opportunities for faculty feedback.

Growth in number of online courses was discussed: seen as possibly valuable for summer and graduate students, less so for undergraduates during the regular school year, also seen as somewhat inconsistent with mission.

### Weaknesses

Failure to use Jesuit identity to drive decisions  
Lack of support available to students for research, travel, study abroad, internship  
Separation of advancement from academics  
Increasing reliance on part-time faculty  
Delayed response to and frequent refusals of requests for hiring  
Uncertainty about new hires (when and whether; lack of advanced notice makes planning difficult)  
Playing faculty and staff against each other (particularly in terms of compensation)  
Insufficient tech support (and switchboard service)  
High cost of summer courses (impact on core) relative to local competitors  
Follow-up with alumni is extremely difficult (protection of contact information by alumni office)—makes assessment of long-term outcomes difficult  
Access to data is widely-spread and difficult to find (structural/organizational problems)  
Faculty are frequently not informed or consulted on changes to organization/structure  
Website often makes it difficult to find information (fragmentation)  
Advising support (office seems overwhelmed)  
Inconsistent cultivation of Jesuit ethos across campus (particularly Boler)

### Threats

Faculty exclusion from decision making  
Fear-driven reactive planning process and recruiting (not proactive)  
Framing often leads to narrow-minded, short-sighted decisions (grabbing fads)  
Faculty compensation issues (both new hires and raises for existing faculty) is a major factor hurting morale (significant correction of salary compression/inversion is important)  
Fine arts facilities need serious renovation (e.g., Kulas is extremely outdated and not accessible to persons with disabilities); potential impact on growth of fine arts, bringing in of performers, admissions/recruiting  
Concentration of institutional service among a small group  
Lack of diversity (in all respects) and corresponding institutional sexism  
Balkanization of faculty (particularly divide between Boler and CAS)  
Proliferation of new programs can stretch resources and risk harming existing programs  
Cost to students (including textbooks)

## SWOT Analyses "Sifting" Results

### List 1A. Dominant Themes in Strengths

Each tag is listed with the number of statements in parentheses, followed by typical examples of more elaborated statements. Simpler statements will not be listed; for example, a number of the service statements provided no additional information; seeing "community service," "CSSA," or "service" listed does not really provide useful information.

#### Service (18)

- Amount of student involvement/service
- Faculty and staff commitment and dedication to students (BUT inconsistency in ethos of service/philosophy and student interaction)
- Focused student engagement in purposeful, mission-driven activities (service, leadership, spiritual well-being)
- High volume of service activity
- Long-standing experiential learning and service learning (and high-profile internships like Meet the Press)
- Many options for students, including many programs with service components
- National recognition for academics, teaching, service.
- Range of health, wellness, spiritual, leadership and service opportunities available to all students
- Reputation: excellence in teaching, well known Business school and pre-health programs, nationally recognized service program, successful sports programs, commitment to veterans
- Service learning well established in the curriculum; service experiences as preparation for living in the real world; service as draw, esp. among Catholic/Jesuit high school students.
- Strong experiential dimension to learning, including research, service learning, internships, study abroad
- Strong service learning programs
- Strong student participation in service and service learning
- Strong variety of experiential learning opportunities (e.g. internships, study abroad, immersion, service-learning, etc.)
- University Mission/ Jesuit Catholic tradition of educational excellence and service

#### Mission (17)

- Alignment of University offices with Jesuit mission.
- Aligns well with University mission
- Contemporary, engaged, interreligious awareness grounded in Catholic tradition
- JCU is 1 of only 28 Jesuit institutions in the US-- strong institutional learning identity, faith and academic rigor, *cura personalis*
- Jesuit, Catholic character and identity (and Mission in general)
- mission/immersion trips
- Outstanding program contributions to JCU learning outcomes, Jesuit values, and social justice mission
- Staff is committed to the University and to supporting its Mission.
- University Mission/ Jesuit Catholic tradition of educational excellence and service
- University Sustainability Committee commitment to educating the JCU community on social and environmental justice issues to ensure the quality of life for future generations in a manner consistent with our Jesuit mission.

#### Quality (15)

- Academic excellence.
- Evidence of excellence in teaching and advising at the graduate level, in part resulting in the success of students in presentations and publications in some departments/programs, acceptance to further graduate work, successful employment after graduation
- Excellent teaching in CAS (not just STEM)
- Faculty are talented and creative and varied
- Good adjunct professor hires
- Good advising

# Looking Back: 2014-2015

Category	Value	Category	Value
Enrollment	12,345	Faculty	456
Revenue	\$15,678,900	Students	10,123
Expenses	\$14,567,890	Staff	345
Net Income	\$1,111,010	Alumni	2,345,678
Assets	\$20,123,456	Grants	\$5,678,900
Liabilities	\$8,901,234	Research	\$1,234,567
Equity	\$11,222,222	Service	\$2,345,678

## SWOT Analysis "Sifting" Results from Meeting on February 26, 2015

### Strengths

- The University's Jesuit mission imparts a uniquely value-laden character to a John Carroll education.
- A rigorous academic experience builds on a liberal arts foundation characterized by interdisciplinarity and globalism, while degrees and majors include a variety of niche programs endorsed by state and national accreditors.
  - John Carroll's faculty are richly talented scholar-teachers whose professional expertise is matched by their commitment to student learning and engagement.
- Supported by a network of University services and enriched by a vibrant campus life, John Carroll's students develop as whole persons, and its graduates are held in the high esteem in the workplace.
  - Experiential and co-curricular learning—including research, internships, study abroad, immersions, and leadership experiences—helps prepare students for an increasingly diverse world and constantly evolving marketplace.
- A wide variety of service opportunities as well as course-embedded service-learning instills students with a passion for social justice, moving them to become "women and men for and with others."
- The beautifully landscaped and architecturally harmonious campus occupies a suburban location near the city of Cleveland and its many resources and attractions, including the Cleveland Clinic, University Hospitals, the Cleveland Orchestra, the Cleveland Museum of Art, the Playhouse Square theater district, and an exciting food scene.
- John Carroll's academic excellence and dedication to service have long received national recognition.
- The University benefits from the loyalty and support of alumni throughout Ohio and the country.

### Weaknesses

- Unclear budget prioritization and resource constraints limit our ability to meet our current needs and to pursue new opportunities related to student learning.
- Gaps in resources and staffing alignment lead to differential workloads and an inconsistent delivery of services for our students.
- A culture not fully informed by data and information sharing prevents effective program and service development, assessment, and prioritization.
- Lack of coordination, collaboration, and communication across units can undermine our ability to support student learning as effectively as our mission demands and causes us to move more slowly and less collegially than we should.
- Our lack of agility and slowness to move prevents us from responding adequately to student's needs and the shifting demands and realities of higher education. Insufficient recognition of accomplishments and awareness of skills and capacities undercuts morale and regional reputation.
- The lack of planned maintenance and updating of classrooms and other student facilities undermines our ability to meet students' expectations in and beyond the classroom.

### Opportunities

#### Programs

- Guarantee every student the opportunity to explore their interests through an integrated learning experience: internship, co-op, research, service, leadership or study abroad etc.
- Tap into growing educational opportunities in areas such as healthcare, STEM and the integration of Big Data Analysis into multiple disciplines, as well as other areas evidenced by growing and sustainable demand.
- Assess existing graduate and certificate programs in the context of student and occupational demand and delivery models, and identify growth opportunities.
- Improve innovation in the area of course delivery through training and leveraging of the new Campus Learning Management System.
- Assess and redesign program flexibility to respond to increasing numbers of students who earn college credits in high school, and from competency based learning.
- Enhance and expand summer programs and programs for high school students.

#### Collaborations

- Engage our alumni base to develop local, national and global partnerships with a focus on building student learning opportunities (i.e. internships, co-ops, research, service and study abroad opportunities).
- More extensively connect our students and majors to the rich opportunities provided in our local geographic region (i.e. healthcare, business, arts, research, sports, etc.). Goal is to have every student participate in an external opportunity across the city of Cleveland.
- Develop collaborative relationships with external institutions (degree granting, corporations and other) to improve efficiencies (distance education), expand specialty course offerings including continuing and adult education, and improve faculty diversity.
- Create a more strategic integrative synergy between CAS and Bolter so as to better prepare our students for a competitive career in a global economy (i.e. entrepreneurship, as well as liberal arts, as part of the "core"), and to reinforce the values of a "true" interdisciplinary university model.

#### Marketing

- Develop a comprehensive and strategic marketing plan.
  - Distinguish between recruiting and marketing strategies.
  - Better highlight student work with faculty (undergraduate research), visibility on web, storytelling, student showcases, athletics.
  - Develop a more "standardized" web architecture for programs: major requirements, internship and research opportunities, scholarships and grants, faculty, etc.
  - Effectively market academic opportunities and integrated learning between CAS and Bolter.
- Implement and promote innovative programs such as direct admission model in certain disciplines to remove real or perceived competitive disadvantages.

### Threats

#### EXTERNAL THREATS:

- Declining population of traditional-age college students in our areas of recruitment.
- Negative national conversation about the value of college in general and the liberal arts in particular. (These have not been effectively countered by faculty)

#### INTERNAL THREATS:

- IT: Lack of effective IT infrastructure to support online learning and other institutional needs; difficulty in hiring qualified IT staff due to inadequate salaries; generally low level of technical savvy among faculty and staff; lack of a culture of continuous learning/training in IT tools; lack of academic IT tools and knowledge.
  - FACULTY: No strategic planning for succession in hiring full-time faculty to replace retiring faculty who are needed to maintain existing programs and develop new ones (examples: Neuroscience, Forensic Behavioral Science, Entrepreneurship, Leadership, etc.). Having sufficient faculty to teach both the integrative and the current core: larger classes and inadequately/appropriately staffed classes; pay for adjunct faculty lags behind other schools in the area. Failure to complete Program Prioritization means that we have not reviewed and potentially cut programs, which thus continue to absorb resources and limit growth in other areas.
- FINANCES: While enrollment is up, the greater tuition discount rate is hurting our net tuition revenue. This lower revenue, with the increased costs required to handle our current number of students, is creating budget challenges for departments as well as for the institution as a whole. This threat is both internal and external.
- STUDENTS: The academic needs and other challenges facing the students we are accepting requires greater involvement of faculty and staff, requiring greater resources per student. Some students struggle to prioritize academic, co-curricular, and other personal obligations; and we give them insufficient guidance and mixed messages to help them do so. When they do not succeed in juggling everything, they require additional services at additional cost.
- FACILITIES: All of our facilities, from classrooms and study areas to recreational spaces, need to be renovated, cleaned, and repaired. Today's students, and their families, have higher expectations than a generation ago, and other schools have invested in this area.

# Looking Back: 2014-2015

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

SWOT Analysis

**Strengths (S)**

- 1. Strong academic reputation
- 2. Diverse student body
- 3. Experienced faculty
- 4. Strong financial position

**Weaknesses (W)**

- 1. Limited marketing budget
- 2. High tuition costs
- 3. Limited physical resources
- 4. Limited international recruitment

**Opportunities (O)**

- 1. Growing demand for online education
- 2. Increasing international enrollment
- 3. Expansion into new markets
- 4. Partnerships with industry

**Threats (T)**

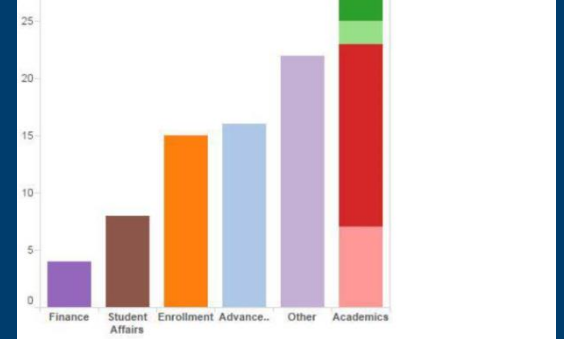

- 1. Increased competition from other institutions
- 2. Economic downturns
- 3. Changing government regulations
- 4. Technological advancements

Academic Excellence	The Student Experience	Institutional Excellence	Innovative Collaborations and Partnerships
John Carroll will strengthen academic excellence, be recognized for its innovative integrative curriculum and global citizenship, and be identified with some signature work programs.	John Carroll University will provide extraordinary, individualized student support, academically, personally, and globally, to its students.	In order to achieve our mission, John Carroll will nurture a dynamic, forward-looking and collaborative institutional culture.	Through its existing network of alumni and friends, and by developing new relationships,
John Carroll will strengthen its academic excellence, be recognized for its innovative integrative curriculum and global citizenship and be identified with some signature work programs.	John Carroll University will provide extraordinary, individualized student support, academically, personally, and globally, to its students.	In order to achieve our mission, John Carroll will nurture a dynamic, forward-looking and collaborative institutional culture.	Through its existing network of alumni and friends, and by developing new relationships,
1. Strengthen its excellence in academic programs and in order to set, develop, improve, and monitor its reputation, we will:	1. Utilize the process of academic review, peer program and division, critically assess its goals and its teaching in order to raise and develop programs that serve our student audience, enhance retention, and improve the student experience.	1. Review and improve all programs and departments.	1) raise possible funding sources for particular areas

## Small Group Discussion

**Small Group Discussion**

Members of USPG will facilitate table discussions and serve as scribes to keep the discussion focused and record responses to discussion questions.

## USPG Town Hall Results

### Big-Picture Comments and Questions:

- From various tables:
- Very little about staff support, training, and development
  - A number of questions:
    - Continuous monitoring (USPG?)
    - Oversight necessary in regard to money (UBC?)
    - Timeline for the plan?
    - Infrastructure issues? What will the impact on operations be? (Are we moving toward a more fiscally responsible arrangement?)
    - Will this become institutionalized?
  - How we understand certain terms will need to be explained to people (e.g., high impact pedagogies, inclusive excellence, peace, sustainability, global citizenship, etc.)
  - Because of deep, shared discussion, we did not have time to talk at the level of tactics or implementation
  - We should do an annual audit for many more things (as we propose for 3.3)

### Send to a facilitator via e-mail:

- Should all of the action steps begin with "John Carroll will..."? This seems redundant. Many of the action steps jump right into the verb: "Allocate and attain more funds..." My preference would be to eliminate the "John Carroll will..." part.
- Some action steps are action steps to realize the objective. Other action steps seem to be a re-wording of the objective or an outcome once the objective has been met.
  - Bullet point 2 under Objective 1.1 states: "Gain national recognition..." Isn't that a re-wording of the objective rather than an action step to meet the objective?
  - Bullet point 5 under Objective 1.4 states: "John Carroll will be recognized regionally..." This sounds like an outcome rather than an action step.
  - Bullet point 1 under Objective 1.5 states: "John Carroll will achieve greater regional and national prominence..." That isn't an action step but rather a restatement of the objective. I could go on.
- Some of the action steps simply state that more money should be thrown at the objective as a solution. At some point, given that one of the legs for decision-making involves a connection to budgeted resources, all of the action steps would need to have a monetary cost assigned to them. Additionally, the action steps should take into account the availability and cost of a supporting infrastructure, a realistic timeline to carry out the action step, and a measurement for determining the completion and success of the step. But back to the money again. Almost all action steps can begin with "Find money to..." I think the finding money part can be assumed.
  - Bullet point 1 under Objective 1.1 states that more money should be provided to faculty to develop new courses. I think the bullet point should read "Develop new [innovative/interesting/appropriate/well-designed] courses for the integrative curriculum."

## Pillar #2: Enhanced Support for Student Development

Goal: John Carroll University will deepen our Jesuit commitment to caring for the individual student (*cura personalis*) by enhancing the support services that students need to realize their potential and achieve their goals.

Objective 2.1: John Carroll will provide for academic advising, and integrating curricular needs of undergraduate and graduate student graduation.

Objective 2.2: John Carroll will develop an environmental responsibility.

Objective 2.3: John Carroll will engage all potential career paths and further education opportunities across all departments, and by vocation in our students.

## John Carroll University's Strategic Vision 2015-2020

### Goal 1: Academic Excellence

In the next three to five years, John Carroll University will achieve regional and national recognition as a leader in liberal arts education through its innovative integrative curriculum and by integrating global citizenship, service learning, ethics, and inclusive excellence across the entire student learning experience. John Carroll will advance existing signature programs and develop new academic programs that will gain recognition and attract enrollment.

Objective 1: Ensure the vitality of the new integrative curriculum as the centerpiece of the student educational experience.

#### Actions

1. Enhance support for faculty to develop new courses for the integrative curriculum.
2. Provide incentives, support, and recognition for courses that use high impact pedagogies.
3. Develop strategies that empower students to be more intentional in their curricular planning.
4. Use student learning data to refine and improve courses.
5. Promote the new integrative curriculum as a model of excellence in teaching and learning.
6. Increase utilization of technology to improve teaching and learning.
7. Develop the Library and Breen Learning Center as a partner in achieving academic learning goals.

Objective 2: Enhance our reputation and attract greater enrollment through signature curricular programs.

#### Actions

1. Research student trend data in order to identify the demand for existing and potential programs.
2. Utilize the process of Academic Program Review to identify potential signature programs.
3. Develop and strengthen revenue-enhancing programs especially in the areas of health, business, and graduate studies.
4. Implement marketing plans that will improve our stature and grow our enrollment.

Objective 3: Intensify our commitment to global learning and citizenship.

#### Actions

1. Develop a strategic identity for global engagement.
2. Expand opportunities for students to participate in global experiences.
3. Develop and expand international faculty exchange or visiting opportunities.
4. Enhance JCU involvement in international Jesuit programs.

Objective 4: Ensure that all students have at least one academic experiential opportunity.

#### Actions

1. Inventory and expand the academic experiential opportunities available to our students.
2. Secure funds and opportunities for student research and internships.
3. Enhance the internship placement process.

Objective 5: Integrate inclusive excellence across the curriculum.

#### Actions

1. Integrate diverse perspectives and learning environments within the curriculum and co-curriculum.
2. Diversify faculty through fellowship programs and hiring.
3. Assess course offerings to determine the breadth and depth of instruction on inclusivity.

Academic Excellence	The Student Experience	Institutional Excellence	Innovative Collaborations and Partnerships
John Carroll will strengthen its academic excellence, be recognized for its innovative integrative curriculum and global citizenship, and be identified with some signature work programs.	John Carroll University will provide extraordinary, individualized student support, academically, personally, and globally, to all students.	In order to achieve our mission, John Carroll will nurture a dynamic, forward-looking and collaborative institutional culture.	Through its existing network of alumni and friends, and by developing new relationships, John Carroll will strengthen its academic excellence, be recognized for its innovative integrative curriculum and global citizenship, and be identified with some signature work programs.
1. Strengthen its excellence in the provision of an academic program and in order to set, develop and improve program and standards that meet, exceed, and anticipate the needs of students, alumni, and the community.	1. Utilizing the process of academic review, the program and division will identify areas of strength and its teaching in order to raise and develop its reputation.	Goal: In the next three to five years, John Carroll University will achieve regional and national recognition for excellence in liberal arts education through its innovative integrative curriculum, and by integrating global citizenship, service learning, and leadership experiences across the entire student learning experience. John Carroll will advance existing programs and develop new academic programs that will gain recognition and attract excellence.	Through its existing network of alumni and friends, and by developing new relationships, John Carroll will strengthen its academic excellence, be recognized for its innovative integrative curriculum and global citizenship, and be identified with some signature work programs.

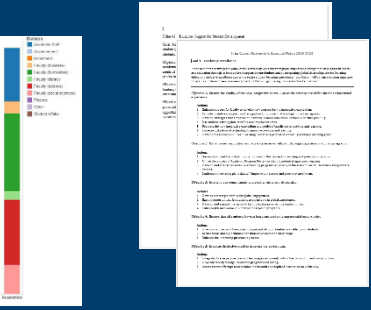

SWOT Analysis

Strengths (S), Weaknesses (W), Opportunities (O), Threats (T)

### Small Group Discussion

- Mention discuss the disc responses

### Strategic Planning - Faculty Feedback

**Division: Science, Mathematics, and Health.**

Items that need to be more explicit in the plan:

- 1-Faculty development for things other than core.
- 2-Faculty support for guiding students in experiential opportunities (including research)
- 3-Faculty support for research
- 4-Faculty hiring, in particular attracting leading scholars to the faculty
- 5-Support for graduate programs (including existing programs)
- 6-Development of a culture of assessment

General concerns:

- 1-Connection to APRs
- 2-Language: How is the success of the plan going to be measured? How are the goals going to be achieved?
- 3-Signature programs vs strong programs
- 4-Connection to budget
- 5-Use of data. Throughout the document, there are multiple actions that indicate data-gathering activities, but there is not an explanation of how the data will be used to inform decision-making processes.
- 6-Process: Hard to see from the minutes how decisions are made.

**Division: Humanities**

- 1-Need for more explicit support of faculty as scholars—faculty research
- 2-More consultation needed, for instance, re: diversity fellowships plan
  - a) More discussion of what diversity fellowships would look like: Where will money come from? Relationship to full-time lines? Status, teaching load, position of postdocs? Mentoring structure and commitment? Concern that might create a 'caste' system.
- 3-Expense and realism: are some of these items just too expensive and would be wasted effort to pursue once we know price tags? Estimated expense would be helpful in evaluating, prioritizing initiatives
- 4-What about faculty hires?
- 5-What is the relationship of this plan to the previous strategic plan?
- 6-Can greater selectivity/greater net tuition revenue be part of the plan? And wouldn't Honors be an appropriate place work on selectivity, as well as "academic excellence" generally?
- 7-Framing sometimes doesn't seem to acknowledge what's already been done, for instance, in global engagement.

## USPG Meeting

Incorporating Feedback from September 17, 2015

*Note 1: Based on feedback from several groups, I have: (1) incorporated the "global learning" piece into Objective 4 (it could be brought out more explicitly within that objective- will leave that to wordsmiths) and (2) removed the "integrate curricular and co-curricular" objective as it seems redundant and more appropriate to include with Goal 2, Objective 1. Alternatively we could remove Goal 2, Objective 1 and include its equivalent here.*

*Note 2: I've included examples of tactics in italics below. These are only examples. Some of them were previously listed as objectives, some are taken from previous iterations of the strategic plan, and some are just ideas to flesh out the intent of the objective.*

### Goal 1: Academic Excellence for Student Learning and Success

John Carroll University will achieve greater regional and national recognition as a leader in liberal arts education and be known for developing superior critical competencies through a challenging integrative core curriculum, innovative curricular programs, and cross-campus support for student learning. John Carroll will deepen its Jesuit commitment to caring for the individual student (*cura personalis*) by enhancing the academic, social/emotional, and spiritual support students need to realize their potential and achieve their goals. Goal One will be achieved through these objectives:

1. Realize the dynamism of the integrative curriculum.
  - Fully implement the new integrative curriculum as the centerpiece of the liberal arts educational experience
  - Increase faculty development opportunities for faculty working in the integrative curriculum
  - Promote our integrative core through regional and national presentations
2. Invest in distinctive programs in business and the sciences and develop or enhance academic programs that will gain recognition, attract enrollment, or will benefit our region.
  - Utilize the process of academic program review to identify potential signature programs
  - Pursue marketing initiatives that will improve our stature regionally and nationally

## GOAL 1 ACADEMIC EXCELLENCE FOR STUDENT LEARNING AND SUCCESS

John Carroll University will achieve greater regional and national recognition as a leader in liberal education and be known for developing superior critical competencies through a challenging integrative core curriculum, innovative curricular programs, and cross-campus support for student learning. Informed by Ignatian traditions of well-educated solidarity, holistic care for the person, and openness to the challenges of the world, Goal One will be achieved through these objectives:

- Integrative Curriculum:** Implement the integrative core curriculum as a foundation for personal and professional success.
- Distinctive Programs:** Develop and enhance distinctive undergraduate and graduate programs that attract external recognition, increase enrollment, and produce graduates who will benefit our region and beyond.
- Investment in Faculty:** Invest in teacher-scholars to strengthen programs that enhance John Carroll University's academic reputation.
- Experiential Education:** Increase opportunities to engage in experiential learning programs through campus-based initiatives and local and global partnerships that prepare students for 21st century careers.
- Student Thriving:** Increase student engagement to improve student persistence, on-time degree completion, personal growth, and professional preparation and advancement.

**SWOT Analysis**

Strengths, Weaknesses, Opportunities, Threats

**Small Group Discussion**

Meeting notes and discussion points from various sessions.

# Looking Back: 2015-2016

During the 2015-2016 academic year, the University community and the Board of Directors approved *Promise and Prominence: John Carroll University's Strategic Plan 2015-2020*.

The University Strategic Planning Group (USPG) is developing a tactical vision for each objective, creating specific tactics/action steps for the next few years, and identifying metrics and required resources. The USPG will also serve as the oversight committee during the implementation phase of the plan.

This document serves as a record of the activities undertaken across campus during the 2015-2016 academic year that aligned with both the strategic plan and the pre-existing budget for fiscal year 2016.

## 2015-2016 SUMMARY

### ACADEMIC EXCELLENCE

John Carroll University will achieve greater regional and national recognition as a leader in liberal education and be known for developing superior critical competencies through a challenging integrative core curriculum, innovative curricular programs, and cross-campus support for student learning. Informed by Ignatian traditions of well-educated solidarity, holistic care for the person, and openness to the challenges of the world, Goal One will be achieved through these objectives:

#### INTEGRATIVE CURRICULUM

Implement the integrative core curriculum as a foundation for personal and professional success.

- Offered a full slate of Foundational Competency and language courses, as well as offerings in every category
- Developed and began implementing the assessment plan for the integrative core curriculum
- Initiated improvements in both scheduling and the application process for core designations

#### DISTINCTIVE PROGRAMS

Develop and enhance distinctive undergraduate and graduate programs that attract external recognition, increase enrollment, and produce graduates who will benefit our region and beyond.

- Developed a template for identifying distinctive programs
- Completed the first cycle of Academic Program Review
- Began developing further tactics for those areas—Pre-Health, Accountancy, Sports Studies, Academic Partnerships, Healthcare IT—already identified for investment

#### INVESTMENT IN FACULTY

Invest in teachers-scholars to strengthen programs that enhance John Carroll University's academic reputation.

- Surveyed faculty and other constituencies about suitable investments
- Continued on-going dialogue between Faculty Council and the Provost's Office about faculty compensation

#### EXPERIENTIAL EDUCATION

Increase opportunities to engage in experiential learning programs through campus-based initiatives and local and global partnerships that prepare students for 21st century careers.

- Initiated the development of a new comprehensive vision of Career Development and Life Planning

# Looking Back: 2015-2016

Goal One: Academic Excellence for Student Learning and Success									
Objective 1.1 Integrative Curriculum									
Tactic	Action Steps	Sub-Steps	Resources Needed		Performance Indicators	Timeline		Responsible Person	
			Budget (Existing or New)	Amount		Date Started	Date Completed		
<b>Transition course offerings from University Core to Integrative Core.</b>									
Course Offerings	Offer a full slate of foundational competency and language courses					Fall 2015	Spring 2016		
Course Offerings	Offer enough integrated courses and Jesuit heritage courses for the current population of "new core" students		see sub-steps	see sub-steps	number of courses; feedback from advising and registration	Fall 2015	in process	Core Committee; Chairs; Faculty

## ACADEMIC EXCELLENCE for Student Learning & Success

John Carroll University will achieve greater regional and national recognition as a leader in liberal education and be known for developing superior critical competencies through a challenging integrative core curriculum, innovative curricular programs, and cross-campus support for student learning. Informed by Ignatian traditions of well-educated solidarity, holistic care for the person, and openness to the challenges of the world, Goal One will be achieved through these objectives:

### INTEGRATIVE CURRICULUM

Implement the integrative core curriculum as a foundation for personal and professional success.

### DISTINCTIVE PROGRAMS

Develop and enhance distinctive undergraduate and graduate programs that attract external recognition, increase enrollment, and produce graduates who will benefit our region and beyond.

### INVESTMENT IN FACULTY

Invest in teacher-scholars to strengthen programs that enhance John Carroll University's academic reputation.

### EXPERIENTIAL EDUCATION

Increase opportunities to engage in experiential learning programs through campus-based initiatives and local and global partnerships that prepare students for 21st century careers.

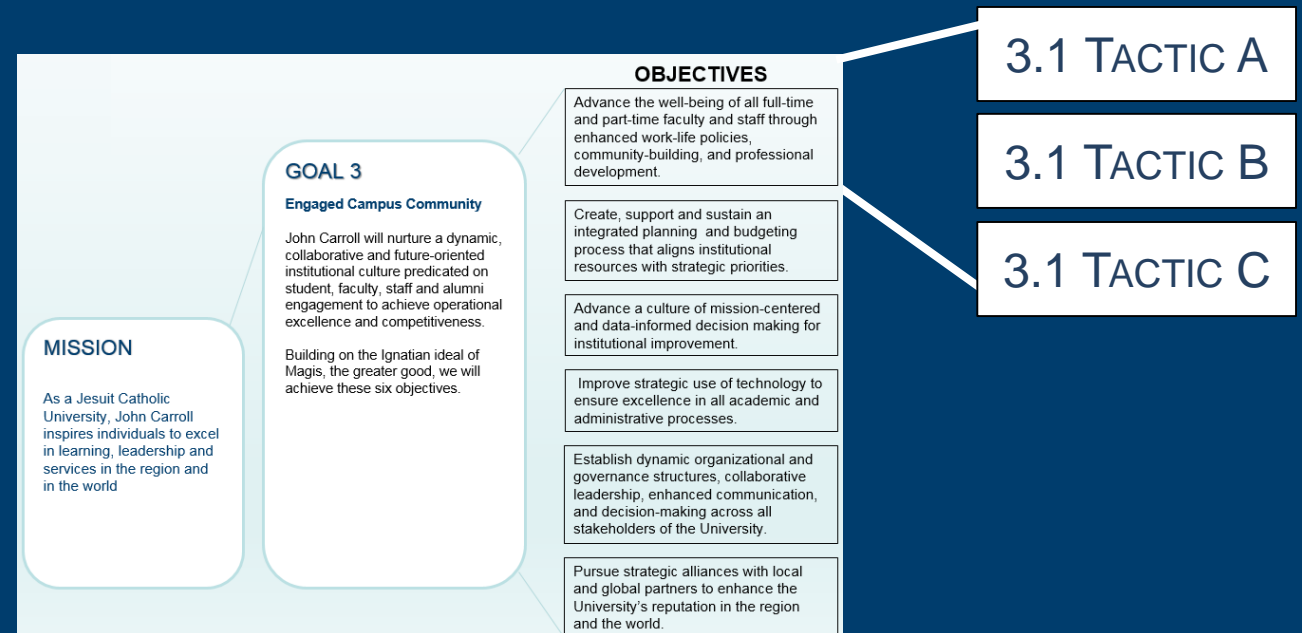

### STUDENT THRIVING

Increase student engagement to improve student persistence, on-time degree completion, personal growth, and professional preparation and advancement.

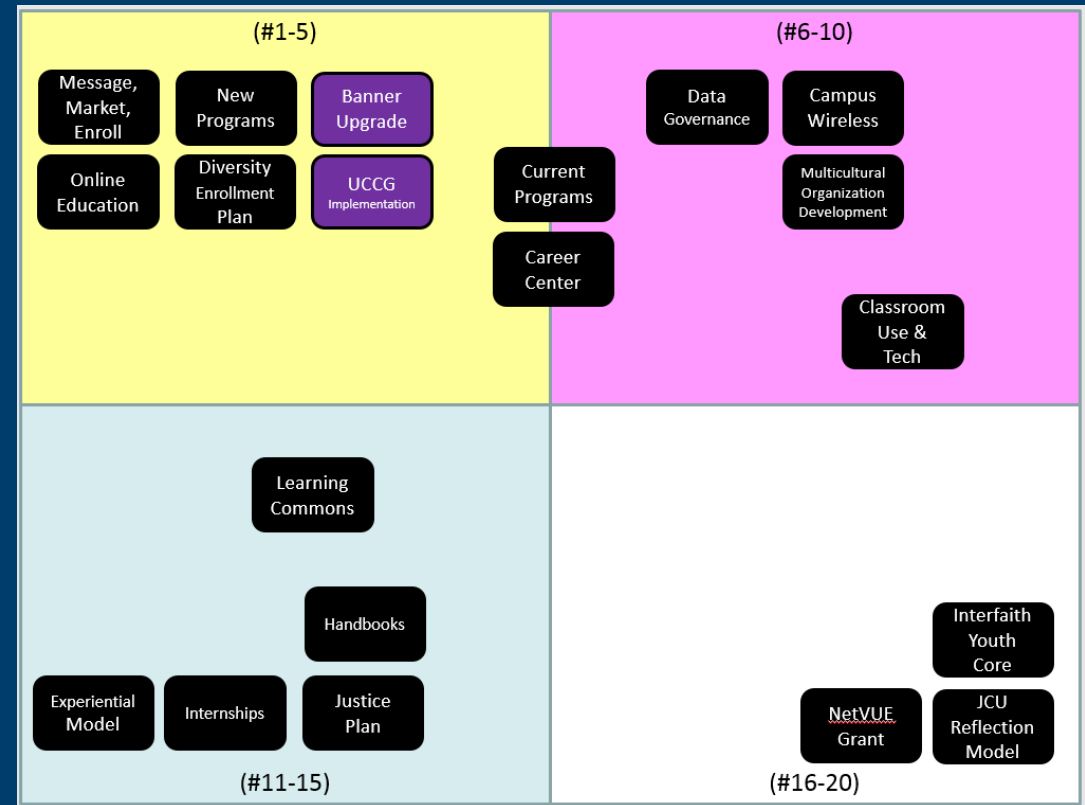

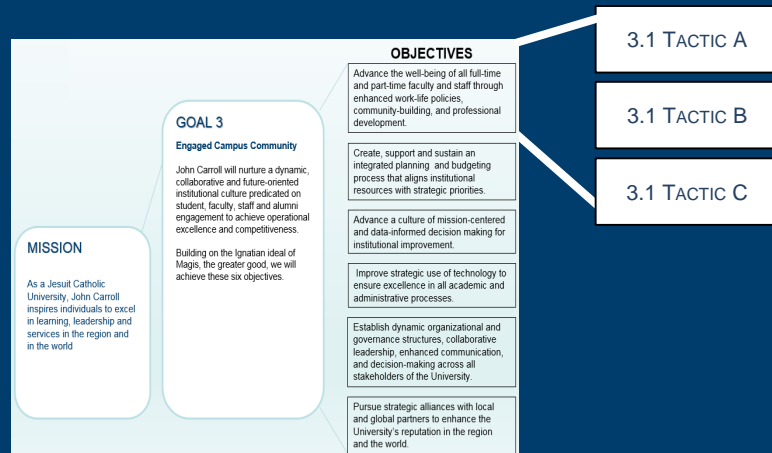

### 2016-2017 TACTICS

- Collect and analyze learning and outcomes assessment data to ensure core's function as foundation for personal and professional success
- Engage in a structural review of the integrative curriculum to assess staffing and to ensure student completion
- Transition course offerings from University Core to new integrative curriculum
- Identify the effects of the new core on other processes/programs, such as advising, scheduling, study abroad, professional development, and transfer policies.
- Identify existing distinctive programs through Academic Program Review and the use of the template for distinctive programs
- Create new programs aligned with the template for distinctive programs
- Develop plans for internal communication, marketing, enrollment, and advancement for distinctive programs
- Provide support for distinctive programs through prioritization and increased operational efficiencies
- Identify and prioritize suitable investment through an open, collaborative process
- Create a schedule for the implementation of identified investments
- Continue on-going campus initiatives that support full-time and part-time faculty and strengthen programs
- Develop and implement a new comprehensive vision of Career Development and Life Planning
- Develop four-year pathways for experiential activities
- Develop a clear, collaborative and centralized approach to internships
- Establish and promote an experiential transcript for co-curricular work
- Enhance programs which support academic thriving, including the Learning Commons, Advising, and Services for Students with Disabilities
- Build capacity for psychological, emotional, spiritual, and financial thriving via support for the whole person
- Extend thriving initiatives to the entire student body, including graduate and transfer students & students from diverse backgrounds

## ACADEMIC EXCELLENCE for Student Learning & Success

John Carroll University will achieve greater regional and national recognition as a leader in liberal education and be known for developing superior critical competencies through a challenging integrative core curriculum, innovative curricular programs, and cross-campus support for student learning. Informed by Ignatian traditions of well-educated solidarity, holistic care for the person, and openness to the challenges of the world, Goal One will be achieved through these objectives:

INTEGRATIVE CURRICULUM

Implement the integrative core curriculum as a foundation for personal and professional success.

DISTINCTIVE PROGRAMS

Develop and enhance distinctive undergraduate and graduate programs that attract external recognition, increase enrollment, and produce graduates who will benefit our region and beyond.

INVESTMENT IN FACULTY

Invest in teacher-scholars to strengthen programs that enhance John Carroll University's academic reputation.

EXPERIENTIAL EDUCATION

Increase opportunities to engage in experiential learning programs through campus-based initiatives and local and global partnerships that prepare students for 21st century careers.

STUDENT THRIVING

Increase student engagement to improve student persistence, on-time degree completion, personal growth, and professional preparation and advancement.

### 2017-2018 TACTICS

- Ensure student completion by assessing impact on orientation, advising, scheduling, study abroad, and transfer, and, as necessary, proposing policy solutions
- Collect and analyze learning and outcomes assessment data to ensure core's function as foundation for personal and professional success
- Complete transition of course offerings from University Core to integrative core

- Use continuous improvement processes to identify current distinctive programs and move other programs toward distinction
- Message, market, and enroll for distinctive programs
- Incentivize, explore, and implement innovative ideas for new programs with a potential for distinction

- Support the redesign of the faculty self-evaluation process in order to align its inherent incentive structure with the strategic plan
- Audit existing investments in full- and part-time faculty as teacher-scholars to determine alignment of current investments with strategic plan
- Implement investments identified through an open, collaborative process

- Develop a four-year developmental model that engages students in significant experiential activities focused on intellect, character, leadership, and service
- Develop an institution-wide, clear, collaborative, and integrative approach to internships and career-related internships
- Implement a new comprehensive vision of career development and life planning

- Ensure that thriving efforts support special populations (graduate students, transfer students, international students, first-generation students, and students from diverse backgrounds)
- Developed and implement strategies to improve the first-year experience and student retention
- Improve thriving through optimal use of space, programs, and the Learning Commons
- Make use of institutional data to accurately assess student thriving

# Lessons Learned

- Tactics are more likely to be completed if they belong to a single person and are part of that person's primary job responsibilities.
- We need better two-way communication between USPG and persons implementing tactics with clear deadlines announced in advance for monitoring and assistance purposes and mechanisms to report up work happening across the institution.
- We need specific, measurable tactics with defined metrics.

# Monitoring 2017-2018 Tactics

## ACADEMIC EXCELLENCE for Student Learning & Success

John Carroll University will achieve greater regional and national recognition as a leader in liberal education and in learning the developing regions' natural resources through a challenging integrative core curriculum, innovative research programs, and cross-region support for student learning. Informed by Ignatian traditions of well-educated scholars, holistic care for the person, and openness to the challenges of the world, Good One will be achieved through these objectives:

**INTEGRATIVE CURRICULUM**

Implement the integrative core curriculum as a foundation for personal and professional success.

**DISTINCTIVE PROGRAMS**

Develop and enhance distinctive undergraduate and graduate programs that attract national recognition, increase enrollment, and produce graduates who will benefit our region and beyond.

**INVESTMENT IN FACULTY**

Select or recruit scholars to strengthen programs that advance John Carroll University's academic reputation.

**EXPERIENTIAL EDUCATION**

Increase opportunities to engage in experiential learning programs through region-based activities and local and global partnerships that prepare students for 21st-century success.

**STUDENT THRIVING**

Increase student engagement to improve student persistence, on-time degree completion, personal growth, and professional preparation and advancement.

**2018-2019 TACTICS**

- Meet enough Core classes to receive on-time degree completion.
- Review administrative structure of the Core to eliminate redundancies and broadly assess Core Director to report to President.
- Offer course enrichment grants to allow class activities that promote the integration of knowledge.
- Implement assessment of both Distinctive and Shared Requirement Core elements.

- Explore and promote distinctive program options, processes, and plans to identify small investments with our need impacts.
- Engage an external consultant to identify costs and benefits of large-scale programs not currently offered by the University that could bring in new students.
- Improve administrative structure, activities, and persistence of under-represented groups in STEM through scholarship and programming.
- Develop process and procedures to accommodate open needs of growing programs.

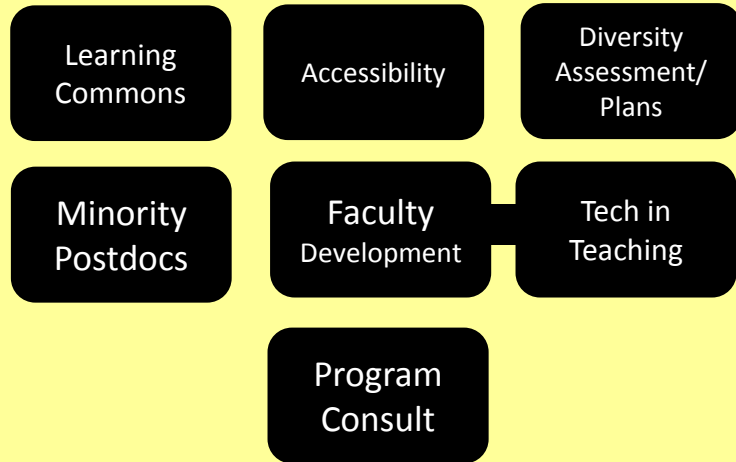

- Develop and recruit to a long-term faculty hiring plan which responds to department and also identifies opportunities the faculty recruited and percentage of total with the part-time faculty and other non-traditional staff.
- Provide an academic review the integration and utilization of technology in teaching and learning and the faculty development will begin by developing and implementing accessible structure within the academic administration with the appropriate responsibility and authority to deliver the vision.
- additional notes in Appendix A.

- Evaluate the CAS Professional Development Program for possible expansion college-wide.
- Complete report of meeting experiential learning opportunities across the university.
- Select or develop tools to track and manage experiential learning.
- Determine which students are participating in experiential opportunities and develop activities to improve retention and success.
- additional notes in Appendix A.

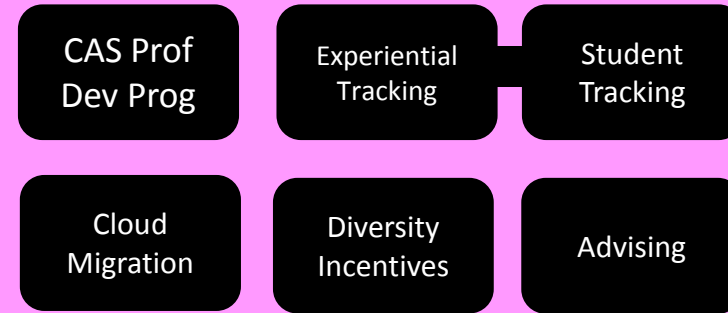

- **Learning Commons Project** (listed in Appendix A).
- Develop and pilot cross-departmental initiatives to improve retention and completion in groups identified as 2017-2019 (in website, if successful, a strengthened first-year experience).
- Improve accessibility on campus by increasing access to tutoring space for students registered with Student Accessibility Services.
- Expand student life, student support, and academic support services to transfer students, graduate students, non-traditional students, and other underrepresented student populations.
- additional notes in Appendix A.

2018-2019 Tactics

## MOST CRITICAL (Top 5)

## MUST DO

CSDI

Interfaith

LOWEST PRIORITY

NICE TO DO

MORE DEVELOPMENT

# Tactical Initiatives: CRITICAL (1 OF 2)

Tactical Initiatives	Cost	Responsible VP
<b>Magis Learning Commons:</b> pre-construction plans, plan staffing	\$3,000.0 to \$5,000.0	President, Provost, VP Advancement, CFO
Engage in <b>market analysis</b> to identify and develop programs that expand undergraduate and graduate enrollment.	\$50.0 to \$75.0	Provost, VP Marketing
Expand <b>technology-assisted instruction.</b>	\$60.0	Provost, ITS
Improve the sustainability of the <b>minority post-doctoral program</b> and improve its ability to serve as a pipeline into tenure-track positions at JCU and at other institutions	\$0.0	Provost

**NOTE:** Amounts reported are thousands of dollars

# Tactical Initiatives: CRITICAL (2 OF 2)

Tactical Initiatives	Cost	Responsible VP
Increase <b>testing space</b> for students registered with Student Accessibility Services	\$30.0	CFO
Improve campus infrastructure around <b>accessibility</b> and changing student needs	\$60.0 by reallocation	Provost, CFO
Allocate funding for campus-wide <b>diversity assessment</b> and inventory; climate survey; and/or departmental consultation or guidance. Specific expenditure to be determined this spring as tactics are prioritized. Fund the development of <b>divisional programs</b> dealing proactively with diversity, equity, and inclusion and race relations	\$20.0	VP Mission

**NOTE:** Amounts reported are thousands of dollars

# Tactical Initiatives: MUST DO

Tactical Initiatives	Cost	Responsible VP
Establish a pilot competitive program to fund for <b>post-tenure research</b> to attain promotion.	\$25.0	Provost
Develop and expand the <b>CAS Professional Development Program.</b>	\$10.0	Provost
Prepare for implementation of <b>student tracking software</b>	\$28.0/year over 3 years	Provost, VP Student Affairs, ITS
Pilot moving a portion of the ITS production servers into a cloud based service by implementing disaster recovery / business continuity required services in a <b>cloud environment.</b>	\$100.0	CFO

**NOTE:** Amounts reported are thousands of dollars

# Tactical Initiatives: NICE TO DO

Tactical Initiatives	Cost	Responsible VP
Create a diversity fellowship program to support the <b>Center for Student Diversity and Inclusion</b> .	\$50.0	VP Student Affairs
Develop communication campaign around two leadership practices for <b>interfaith</b> excellence; hire an interfaith student intern to lead communication efforts; develop collaborative interfaith workshop	\$6.5	VP Mission

**NOTE:** Amounts reported are thousands of dollars

# Reminder!

- All materials are available for review on the website.
- Annual Report will be posted in May.
