PREFACE

John Carroll University is a Jesuit Catholic university (one of twenty-eight in the United States), founded in 1886, and located in University Heights, Ohio. Our mission is to “inspire individuals to excel in learning, leadership, and service in the region and in the world.” Throughout our 127-year history, we have dedicated ourselves to providing Jesuit education not only to enrich the lives of graduates, but also to challenge them to enrich the lives of others in order to create a more just society. These aspirations are expressed in our shared Jesuit mission of forming “men and women for others.”

We form critical thinkers through a curriculum founded on Ignatian pedagogy. We support our faculty in their roles as scholar-teachers, believing that engaged researchers who invite students into their specialized areas of discovery offer an extraordinary learning experience. We ensure that every student has a faculty advisor and that classroom learning is extended through meaningful co-curricular programs.

Our success is evidenced by extraordinarily strong retention rates, high persistence rates, and enviable graduation rates. Our alumni make a difference, whether they rise to prominence or work with integrity and dedication in their careers and communities.

Operating on a semester calendar, John Carroll University is a four-year, not-for-profit university which offers both undergraduate and graduate degrees through the College of Arts and Sciences and the John M. and Mary Jo Boler School of Business.

Uniquely situated to fulfill the University’s mission of creating men and women for others, the counseling programs are housed in the Department of Counseling, which is a department in the College of Arts and Sciences. This Department is the newest in the University. The counseling programs consist of the Clinical Mental Health (CMHC) and School Counseling (SC) master’s degree programs, and a certificate program in Spiritual Wellness & Counseling. Both of the master’s degree programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP) until October 2020. Five full-time (four tenure-track, one visiting professor) faculty members are the core faculty for the program.

The program prides itself on creating a supportive learning environment with several “value-added” features: student-faculty research projects, an award-winning chapter of the national honorary society for counseling students, a doctoral preparation seminar for students considering applying to doctoral programs, three areas of possible concentration (substance use disorders, non-profit management, spiritual wellness & counseling) and an extensive network of possible placements for internship.

Department of Counseling Vital Statistics

In the 2015/2016 academic year, the total enrollment for the two master’s programs was 128: 114 in Clinical Mental Health Counseling and 14 in School Counseling. Of the students admitted

to the fall 2013 cohort, 95% completed the Clinical Mental Health Counseling program in the expected three-year time period and 100% completed the School Counseling program in the expected three-year time period. The programs had 36 graduates from summer 2015 to spring 2016: 29 in Clinical Mental Health Counseling and 7 in School Counseling. Our graduates have consistently achieved high scores and high pass rates on licensing examinations. During this academic year, the graduates of the Clinical Mental Health Program had a pass rate of 85% on the NCE examination. School Counseling graduates achieved a 100% passing rate for school counselor licensure. Our graduates also have been extremely successful in obtaining employment in positions in recognized occupations for which they were trained. For Clinical Mental Health Counseling graduates the employment rate was 100%. School Counseling graduates had an 85% employment rate.

I. MISSION AND LEARNING OUTCOMES

A. Mission Statement & Counseling Program Goals

The mission of the John Carroll University counseling program is to create professional clinical mental health and school counselors who embody the Jesuit ideal of *persons for others* and *leaders in service*. The program strives to offer a broad-based education that will prepare students to become competent and effective counselors who are also leaders and advocates. In addition, the program promotes awareness and understanding of our multicultural, pluralistic, and highly technological society. Finally, the program promotes commitment to the counseling profession through involvement in professional counseling organizations and other activities that encourage professional identity as a counselor. This mission statement was adopted by the counseling program, and approved by the Dean, in August of 2004.

The counseling program has established three program instructional goals.

1. Offer a broad-based education that will prepare students to become competent and effective professional counselors who are advocates, consultants and helpers.
2. Ensure awareness and understanding of multicultural issues, and instill mindfulness about the evolving pluralistic and technological nature of our society.
3. Promote commitment to the counseling profession through involvement in professional counseling organizations and in other activities that encourage professional identity as a counselor.

Striving for educational excellence, the department chair, faculty, and professional staff have established the following administrative goals for the counseling program.

1. Maintain CACREP and CAEP accreditation, and the State of Ohio Counselor, Social Worker and Marriage and Family Therapist Board and the Ohio Department of Education approval.
2. Encourage contributions to the counseling profession through faculty research.
3. Remain steadfast in efforts to promote diversity in the faculty as well as in the student population.

4. Evaluate all aspects of the Program on a regular basis and use the results of these evaluations to strengthen the Program.
5. Ensure the availability of field placement sites and encourage job placements for Program graduates by creating and maintaining positive relationships with local agencies, schools and school districts.

B. Student Learning Goals/Curriculum Map

(Goals, and the courses that meet those goals, are indicated.)

Counseling Program Learning Goals: **Core Sequence**

After completing this program, the student will be able to:

1. Demonstrate an understanding of the major principles of research design and program evaluation. Evaluate research reports for methodological and statistical appropriateness. (CG 509, ED 530)
2. Apply basic counseling and facilitative communication skills in individual and small group settings. (CG 500, CG 562 & CG 535, CG 591/592, CG 596/CG598)
3. Demonstrate an understanding of counseling theories, and evidence-based counseling approaches. Appropriately apply various theoretical approaches when working with clients and/or students. (CG 500, CG 561, CG 573, CG 591/592, CG 596/CG598)
4. Demonstrate understanding of the psychosocial foundations of human development, behavior and learning, and apply that knowledge when working with clients and/or students. (CG 500, CG 505, CG 591/592, CG 596/CG598)
5. Counsel and advocate for individuals from diverse social, cultural, sexual orientation and economic backgrounds with an awareness of how discrimination and societal expectations can impact healthy psychological development and the counseling process. (CG 500, CG 563, CG 591/592, CG 596/CG598)
6. Demonstrate knowledge of group process and procedures by describing and analyzing group process, and by applying basic techniques of group counseling. (CG 535, CG 591/592, CG 596/CG598)
7. Conduct a developmentally appropriate career exploration and assessment that demonstrates an understanding of career development theory and the career counseling process. (CG 531, CG 591/592, CG 596/CG598)
8. Demonstrate the ability to select and evaluate assessment instruments for possible use with clients and/or students. (ED 530, CG 591/592, CG 596/CG598)
9. Model legal and ethical understanding of the ASCA or ACA ethical standards. Demonstrate knowledge of the appropriate ethical code and of the ethical decision making process. (CG 500, CG 501)

Counseling Program Goals: **Clinical Mental Health Counseling**

After completing this program, the student will be able to:

1. Identify as a clinical mental health counselor who is knowledgeable about the history and development of the clinical mental health counseling profession, is aware of the challenges facing the profession, and is prepared to advocate for the profession. (CG 500, CG 573, CG592, CG 596)

2. Assess, evaluate, and diagnose clients using assessment instruments and the DSM-IV-TR. (CG 570, CG 571, CG 572, CG 592, CG 596)
3. Determine, based on the assessment and diagnosis, an appropriate treatment plan for clients. (CG 573, CG 574, CG 592, CG 596)
4. Implement interventions and treatment plan, and continuously assess the effectiveness of the intervention. (CG 573, CG 574, CG 592, CG 596)

Counseling Program Goals: **School Counseling**

After completing this program, the student will be able to:

1. Identify as a school counselor who is knowledgeable about the history and development of the school counseling profession, is aware of the challenges facing the profession and is prepared to advocate for the profession. (CG 501)
2. Plan a developmentally appropriate school-counseling program that supports academic, personal/social, and career development. The program should be modeled on the ASCA standards and should take into consideration the specific needs of a particular school setting. (CG 538, CG 591, CG 598)
3. Communicate, collaborate and consult with school age students, their families, school staff, and community agency representatives to promote a safe, healthy, and effective learning environment. (CG 501, CG 538, CG 591, CG 598)
4. Implement a system of ongoing program evaluation by establishing a framework for record- keeping and continuous feedback from program stakeholders. (CG 538, CG 591, CG 598)

C. Institutional Academic Learning Goals

How the Counseling Program goals map onto the Graduate Studies Learning Goals is presented in [Appendix A](#).

II. FACULTY PROFILES

Cecile Brennan, Ph.D., PCC-S, LSC

Associate Professor

Chair, Department of Counseling and Exercise Science

cbrennan@jcu.edu

Dr. Brennan received her Ph.D. from Cleveland State University. She is a Professional Clinical Counselor with a supervisory designation, a licensed School Counselor, a National Certified Counselor, and a graduate of the Cleveland Psychoanalytic Center's Postgraduate Program in Psychoanalytic Psychotherapy (PPP). She is active as both a scholar and a practitioner. Her scholarly interests are in the fields of ethics, counselor education, the intersection of Buddhism and psychotherapy, and the impact of society and culture on mental health. As a practitioner, she concentrates on working with families and children. Dr. Brennan is a member of several professional organizations (ACA, OCA, ACES, ASERVIC) and participates at national, regional and state conferences every year.

Paula Britton, Ph.D., PCC-S

Professor

Clinical Mental Health Counseling Internship & Practicum Coordinator

pbritton@jcu.edu

Dr. Britton received a Ph.D. in Counseling Psychology and a M.A. in Counselor Education from the University of Akron. She is Professional Clinical Counselor with a supervisory designation, a psychologist, and a National Certified Counselor. Dr. Britton has extensive experience within the field and is active in consulting, clinical practice, scholarly research, and publishing. Dr. Britton is involved in many professional organizations. Her areas of professional expertise include counselor supervision, HIV/AIDS, and complementary and alternative therapies.

Nathan Gehlert, Ph.D., PC

Assistant Professor

ngehlert@jcu.edu

Dr. Gehlert received his Ph.D. from Loyola University Maryland where he was awarded the Barry K. Estadt Medal for excellence as a clinician, teacher, supervisor, and researcher. He keeps an active research agenda in the areas of couples therapy, personality theory, and spirituality. As a practitioner, Dr. Gehlert's areas of expertise include group work, relationship issues, and the emerging concept of the quarter-life crisis. He is active in national and local professional organizations, presents frequently at conferences, and currently serves as chapter advisor to John Carroll's Beta Chi chapter of Chi Sigma Iota.

Martina Moore, Ph.D. PC, LICDC-CS, CEAP, SAP

Visiting Professor

mmoore@jcu.edu

Dr. Moore received her Ph.D. in Counselor Education and Supervision from Walden University. She received her M.A. in counseling at John Carroll University. Dr. Moore completed a two-year post-graduate program at the Gestalt Institute of Cleveland in the family and couples counseling specialization. Dr. Moore is a Licensed Professional Counselor, a Licensed Independent Chemical Dependency Counselor-Clinical Supervisor, a Certified Employee Assistance Professional, and a Substance Abuse Professional. Dr. Moore owns a treatment center with six locations in Ohio. She is active in the field as a consultant, advocate, and trainer. She has been an adjunct faculty member at the Gestalt Institute of Cleveland. She is involved in various organizations, including the Association of Humanistic Counseling and the American Counseling Association. Her areas of professional expertise include addictions, couples and families, and diversity in counseling.

Nancy P. Taylor, Ph.D., PCC-S

Assistant Professor

ntaylor@jcu.edu

Dr. Taylor received the Ph.D. in Counseling Psychology from Kent State University. She is a Professional Clinical Counselor with a supervisory designation, a licensed psychologist, and a Professional School Counselor. Dr. Taylor is active in several professional organizations, including APA, ACA, OCA, and NCOCA. Her areas of professional expertise include wellness issues, chemical dependency, career counseling, spirituality, and working with children and teens. For several years she was associated with the Cleveland Heights/University Heights city schools in the areas of counseling and chemical dependency prevention. Prior to becoming a full-time faculty member, Dr. Taylor served as an Adjunct Assistant Professor in the Department of Education and Allied Studies while on the professional staff of the John Carroll University Counseling Center. Her research interests include forgiveness and the use of outcome measures in clinical training and supervision.

III. SUMMARY OF PROGRAM EVALUATION RESULTS

Assessment of students' academic growth and professional development begins during the admissions process and continues throughout the Program. The department's formative and summative evaluation process (outlined in [Appendix B](#)) utilizes the 1) Self Efficacy Survey, 2) Counselor Competencies Scale – Revised (CCS-R), 3) Professional Performance Fitness Evaluation 4) Counselor Preparation Comprehensive Examination (CPCE), 5) course evaluation, 6) site evaluation by student 7) student exit survey, 8) site supervisor program evaluation, 9) alumni survey, and 10) employer survey.

- 1) As part of the Counseling Program assessment plan, students are required to complete a Counselor Activity Self-Efficacy Survey ([Appendix C](#)) at four time points during the program, when enrolled in the following courses:

CG 562 Counseling Techniques and Practice

CG 591/592 Practicum

CG 596A/598A Internship I

and

CG 596B/598B Internship II.

This is a brief, three-part survey that asks students to rate their beliefs about their ability to perform various counselor behaviors or to deal with particular issues in counseling.

This is not an evaluative survey, but is a formative assessment to allow students to reflect on their development as they progress through the program. The process of self-reflection is woven throughout the curriculum in the belief that developing professionals benefit from analyzing and reflecting on their strengths and weaknesses.

While not an evaluative survey, the results compiled in [Appendix D](#) show that the students are developing as expected as they take their course sequence.

- 2) The Counselor Competencies Scale—Revised (CCS-R) is found in [Appendix E](#). It assesses trainees' skills development and professional competencies. Additionally, the

CCS-R provides trainees with direct feedback regarding their demonstrated ability to apply counseling skills and facilitate therapeutic conditions, and their counseling dispositions (dominant qualities) and behaviors, offering the trainees practical areas for improvement to support their development as effective and ethical professional counselors.

As part of the John Carroll University Counseling Program assessment plan, instructors and licensed site representatives are asked to complete the CCS-R at five time points during each student’s program, when the student is enrolled in:

- CG 535 Group Procedures – filled out by instructor
- CG 562 Counseling Techniques and Practice – filled out by instructor
- CG 591 or 592 Practicum – filled out by licensed site representative
- CG 596A or 598A Internship I– filled out by licensed site representative
- and
- CG 596B or 598B Internship II – filled out by licensed site representative.

The CCS-R was piloted during the 2015-2016 academic year. The chart below shows the combined averages from spring 2016. Full implementation will begin during the summer 2016 semester.

Course	Spring 2016 Average on Part 1	Spring 2016 Average on Part 2	Spring 2016 Overall Average
CG 535	3.90	4.54	4.19
CG 562	4.17	4.46	4.28
CG 591	-	-	-
CG 592	3.95	4.30	4.13
CG 596A	4.20	4.41	4.30
CG 596B	4.64	4.64	4.64
CG 598A	-	-	-
CG 598B	-	-	-

- 3) At the completion of the CG 591/592 Practicum, students submit three Professional Performance Fitness Evaluations completed by:
 - John Carroll University Practicum Supervisor
 - By the Student him/her self
 - Practicum Instructor

[Appendix F](#) shows the results from the Summer 2015 through Spring 2016 terms. The results are at the “Meets criteria consistently” level as expected. These evaluations are used to provide feedback to a student regarding deficiencies or not meeting program standards prior to his or her entry into the internship experience.

- 4) The final examination requirement for the Master’s Degree in Clinical Mental Health or School Counseling is satisfied through successful completion of the Counselor

Preparation Comprehensive Examination (CPCE). It is recommended that students take the exam before their last semester in the program. In case a student does not receive a passing grade, an additional semester before the anticipated graduation date is available for retaking the exam. The exam must be passed before a student can graduate from the program.

The Master’s Comprehensive Examination, the Counselor Preparation Comprehensive Exam (CPCE), assesses the student’s overall knowledge of counseling. It consists of 160 multiple-choice questions. The examination incorporates the eight core content areas with 20 questions each, covering professional orientation, research and evaluation, group work (dynamics, processing, and counseling), appraisal of the individual, the helping relationship (including theory as well as methods and techniques of counseling), human growth and development, social and cultural foundations, and life span and career development. The exam has been created by the Research and Assessment Corporation for Counseling (RACC), in conjunction with the Council for Credentialing and Education (CCE)—both affiliate corporations of the National Board for Certified Counselors (NBCC). The CPCE exam is commonly used in counseling programs throughout the country and provides students with an opportunity to synthesize their knowledge while also preparing for the licensing exams which they will need to take upon graduation.

For students admitted Spring 2016 or later, the passing score is one that is at or within 3/4 standard deviation below the current mean for the national sample of students who took the exam as an exit exam. For students admitted Fall 2015 or earlier, the passing score is one that is at or within one standard deviation below the current mean for the national sample of students who took the exam as an exit exam.

The table in [Appendix G](#) shows John Carroll University student’s averages on the eight core content areas in comparison with the national averages of students who took the exam as an exit exam. All forty-five of the students who took the CPCE during the summer 2015, fall 2015, and spring 2016 terms passed.

- 5) The Course Evaluation ([Appendix H](#)) is distributed using the Class Climate Course Evaluation Feedback System to all students enrolled in counseling program courses. Starting spring 2016, the course evaluations were distributed entirely online. The response rate remained high.

Course Evaluation Totals and Response Rates

	Summer 2015	Fall 2015	Spring 2016
Total Enrolled	232	342	298
Total Responded	212	312	266
Response Rate	91.4%	91.2%	89.3%

[Appendix I](#) contains reports describing overall averages, comparisons of full time and part time instructors, comparisons of course types, and comparisons of course locations.

- 6) At the conclusion of the second semester of internship, students complete the Student Internship Site Evaluation ([Appendix J](#).) These are reviewed by the Clinical Coordinator, kept on file for future student inquiries only, and are not viewed by site employees.

- 7) -10) Fall 2016 and Spring 2017 semesters were spent redesigning the department's systematic follow-up studies of graduates, site supervisors, and employers of program graduates. New Student Exit Surveys, Site Supervisor Program Evaluations, Alumni Surveys, and Employer Surveys ([Appendix K](#)) were designed. The new Student Exit Surveys and Site Supervisor Program Evaluations were distributed at the end of the spring 2016 semester to students enrolled in CG 596/598B Internship II and their site supervisors. Follow-up Alumni Surveys and Employer Surveys will be administered nine months from the conclusion of the Internship II experience. There is not enough data available at this time to be statistically significant.

IV. SUBSEQUENT PROGRAM MODIFICATIONS

Changes in Course Offerings

There has been minimal alteration of the core curriculum in the past seven years. The core faculty decided to eliminate a course in statistics from the school counseling curriculum. It was felt that the students' need for basic statistics was met by the information provided in CG 509, Research Methods for Mental Health Professionals, and ED 530, Tests & Measures. In place of this course, students were required to enroll in CG 500, Orientation to Counseling. This course provides an overview to graduate studies, to the counseling profession and to the core courses students will be required to take. Scores on the CPCE exam are showing that the removal of the statistics course has not affected passing rates.

CG 570, Psychopathology will be eliminated from the curriculum, effective Fall 2016, since much of the same material is covered in CG 572, Diagnosis. Psychopathology had been a requirement of the State of Ohio, but since the state is accepting CACREP guidelines, it is no longer a requirement. Students will be able to select from CG 514, Addiction Knowledge; CG 554, Counseling Children & Adolescents; CG 556, Families & Couples Counseling; or CG 564, Advanced Counseling Techniques.

Changes in the Comprehensive Exam

For students admitted Spring 2016 or later, the passing score on the CPCE was raised. It is one that is at or within 3/4 standard deviation below the current mean for the national sample of students who took the exam as an exit exam. For students admitted Fall 2015 or earlier, the passing score is one that is at or within one standard deviation below the current mean for the national sample of students who took the exam as an exit exam. The increase was made to allow the department to allow for more multiple choice testing of the students, if needed, while enrolled in the program, and prior to taking the NCE.

Changes in Licensure

The department applied for Licensed Independent Chemical Dependency Counselor (LICDC) licensure. If approved, sites will need LICDC-S and LPCC-S at the site to authorize and sign for clinical hours. The department hopes to offer this as a concentration starting Fall 2016.

V. OTHER SUBSTANTIAL PROGRAM CHANGES

The department submitted its required Academic Program Review Self-Study Report to the Dean's office in September 2015. A Review Team comprised of two external reviewers conducted their campus visit November 9-10, 2015. The review team submitted a report, and while generally positive, the reviewers identified four weaknesses:

- 1) Lack of lab space for students to practice counseling
- 2) Lack of an identifiable physical location of the Counseling Program
- 3) Declining enrollment in the School Counseling Program
- 4) Lack of a Counselor Education faculty with relevant and recent experience in School Counseling

The reviewers also recommended a review of the Lorain County Community College (LCCC) University Partnership program, given staffing issues and the student enrollment at LCCC.

In response to the Self-Study Report, the department submitted an Action Plan to the Provost's Office in May 2016. Two new positions, Assistant/Associate Professor of School Counseling and Coordinator of the Substance Use Disorder Concentration, were requested and approved. The search for candidates for those positions will take place during the 2016-2017 academic year. Meetings will be scheduled with the department chair, dean, and LCCC University Partnership administrator to discuss the continuation of the program. Premier space, including faculty offices in a shared space, an office with a waiting area for the chair and administrative assistant, space for graduate students, and lab space was requested. The John Carroll University Space Utilization Committee will be looking at this request during the 2016-2017 academic year and it will receive high priority.

JOHN CARROLL UNIVERSITY
DEPARTMENT OF COUNSELING
ACADEMIC PROGRAM ASSESSMENT SYSTEM

Counselor Activity Self-Efficacy Scale

As part of the Counseling Program assessment plan, students are required to complete a Counselor Activity Self-Efficacy Survey at four timepoints during the program. This is a brief, three-part survey that will ask you to rate your beliefs about your ability to perform various counselor behaviors or to deal with particular issues in counseling.

Each part of this survey will ask you to rate your beliefs about your ability to perform various counselor behaviors and to deal with particular issues in counseling. Please provide your honest, candid responses that reflect your beliefs about your current capabilities, rather than how you would like to be seen or how you might look in the future.

This is not an evaluative survey, and **there are no right or wrong answers**. It is meant as a formative assessment to allow you to reflect on your development as you progress through the program.

The survey should be completed when enrolled in the following courses:

- CG 562
- CG 591/592
- CG 596A/598A
- CG 596B/598B

If you encounter any problems completing the survey, please contact Amy Zucca by email at azucca@jcu.edu or by phone at 216-397-1708.

* 1. Please enter your name (Last, First)

* 2. Your completed survey will be returned to you by email for your records. Please enter the email address to which you'd like your completed survey sent.

PAGE 2 OF 2

Please provide brief answers to the following questions:

1. Did your orientation session at the beginning of your placement give you an adequate overview of the placement site?

2. Were the goals of your placement adequately defined between you and your Site Supervisor?

3. Was your Site Supervisor available for regular consultation?

4. Were you able to utilize staff resources from all areas of the agency?

5. Were you given feedback regularly and consistently during your internship experience, regarding your progress?

6. Were you given appropriate responsibility? Too little responsibility? Too much responsibility?

7. Did you learn useful, marketable skills during your internship?

8. What could have been done differently to make this a better placement?

9. Would you recommend this site to another student? Why or why not?

Survey Introduction

Dear Graduate Student,

Congratulations on your upcoming graduation! We ask that you take a few minutes to help us evaluate JCU's performance. Please complete this evaluation form and submit your responses online. You should see a Thank You message, if your submission was successful.

Our main purpose is to better understand the degree of student satisfaction with our graduate programs and to identify areas where improvements may be necessary.

Your answers to all questions are very important and will be summarized in a report that will be shared on our website. Be assured, however, that your individual answers will never be released publicly in a form that would permit anyone to know that they are yours.

Thank you helping us to evaluate JCU's services to students. We really appreciate your completing this survey--it is your chance to tell us what we have done well and where we need to make improvements.

Survey Introduction

Dear Graduate of JCU's counseling programs,
Congratulations and thank you for completing your masters at John Carroll University your upcoming graduation! Now that you are no longer our student, we ask that you take a few minutes to help us evaluate JCU's performance and provide us an update on what you are doing. Please complete this evaluation form and submit your responses online. You should see a Thank You message, if your submission was successful.

Our main purpose is to better understand the degree of satisfaction with our graduate programs and to identify areas where improvements may be necessary.

Your answers to all questions are very important and will be summarized in a report that will be shared on our website. Be assured, however, that your individual answers will never be released publicly in a form that would permit anyone to know that they are yours.

Thank you for helping us to evaluate JCU's services to students. We really appreciate your completing this survey--it is your chance to tell us what we have done well and where we need to make improvements.
