***PL 300 can be taken in the spring of year 2 or 3 depending on the Physics course taken.**

² All science courses include the corresponding lab

Concentration Areas: MATHEMATICS AND SCIENCE (141)³

Please Note: Due to the nature of this combination of content areas, it is not possible to schedule all required courses in the four year sequence. In the sample four year plans below, 9 credits are unscheduled (Div II Elective, Div III Elective, and ED 350). Candidates will work with their advisor to schedule the remaining required hours (i.e. summer courses, transfer credits, semester overloads).
