

Workers' Compensation

John Carroll University provides the mandated workers' compensation coverage for all employees. Coverage is provided for work-related illnesses or injuries as defined under Ohio law. Employees must report all work-related illnesses or injuries to their supervisor before the end of the shift/workday. Supervisors must complete an Accident Injury/Illness Form located at <http://www.jcu.edu/fas/hrpolicies.htm>. Employees must complete a workers' compensation claim, which is also available at <http://www.jcu.edu/fas/hrpolicies.htm>. Failure to timely identify or report work-related illnesses or injuries may result in delay or denial of coverage. (See also Accidents and Emergencies on page 67.)

The automatic continuation of other university benefits may be affected by workers' compensation benefits received. Additional details and conditions on workers' compensation coverage are available in the Office of Human Resources.
