## Levels of Learning Goals: Linking Program and Course Learning Goals

This worksheet will assist programs to identify the relationship between program-level learning goals and course-level objectives. Begin by listing the program learning goals in the far left column and then list the course(s) or activity (e.g. internship) that is designed to contribute to the program-level goal. The third column provides a space to list the specific course objective(s) and can also be used to inventory evidence (e.g., student work) to be collected for outcomes assessment.

## Program:

| Program Goals | Course/Activity | Course Objective/Evidence |
|---------------|-----------------|---------------------------|
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
|               |                 |                           |
