

JCU sponsored Study Tour to

JAPAN

2008

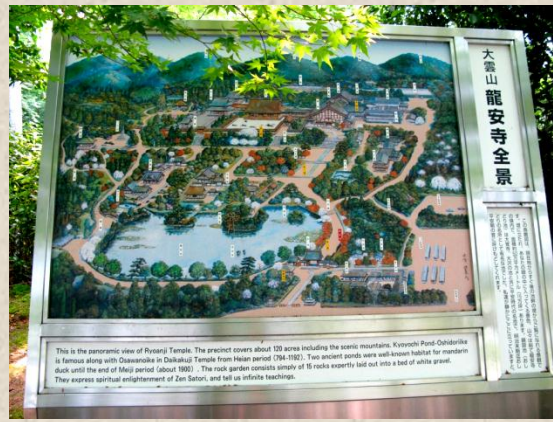

Photos by Mark Bleahu, study tour participant

I enjoy taking Japanese with Nakano Sensei, the language is very interesting to me because of all the unique characters. I plan on participating in the study tour in Japan after a few more Japanese classes, to become more familiar with the language. Also, Nakano Sensei is able to make learning the language easy and fun as long as you study as well. In the mean time I am in the Japan popular culture class learning background knowledge about the country. Then at the end of the course there is a two week trip to Japan where I will get firsthand experience in the country.

(Written by Greg Gutmann , study tour participant, before the tour.)

I have really enjoyed this Japanese class so far. I originally did not intend on taking Japanese this year, but I decided to take it after dropping a math class. I find the language extremely fascinating and Nakano Sensei makes the class even better by telling us interesting points about the Japanese culture. Japanese is one of my most exciting, fun classes because I enjoy learning everything I possibly can each time I am there.
