

**John Carroll University in Rome 2017**  
**A Program sponsored by the Bishop Pilla Program**

This study abroad program offers students an extraordinary opportunity to live in Rome and study at the Pontificia Università Urbaniana in Vatican City while earning John Carroll University credits. Students are able to enroll in 18 credit hours to fulfill the requirements of the new and old JCU academic core. Grades will be given in the same manner that they are given on the Cleveland campus and students will not have to complete any transient forms.

In addition to exposure to the culture, history and dynamism of Rome, the John Carroll University in Rome Program gives students the added opportunity to do an **international** internship during the Fall semester, gaining skills, competency and work experience in an international context. Students also have a unique opportunity to engage in a global Service Program where students are exposed to issues of poverty and social justice in the city of Rome.

At the conclusion of the program, JCU students will have experienced different views from their home culture and will have gained a better understanding of Italy's position in the international community.
